TERMS OF SALE

These terms of sale are designed to conform to the Amended Rules for Public Auction Sales in New York City by the Department of Consumer Affairs and the Bylaws of the Professional Numismatists Guild, Inc.

1. This public auction sale is conducted pursuant to these Terms of Sale by licensed and bonded auctioneers, Harvey G. Stack, #0522763 and Lawrence R. Stack, #0798114.

2. **Each bidder, by bidding in the sale, agrees that a 10% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This 10% BUYER'S FEE will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. No lots will be delivered or shown at the auction. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. STACK'S reminds you that all bidders personally guarantee prompt payment in full. Checks are permitted with identification acceptable to STACK'S. On any accounts past due, STACK'S reserves the right to extend credit and impose periodic charges as stated in these Terms of Sale or on the invoice or statement. Buyer agrees to pay the reasonable attorney fees and costs required to collect on such past due accounts. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, use tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold STACK'S harmless for any sales or other taxes due thereunder, including reasonable attorneys fees, costs and any interest or penalties assessed. Buyer shall also pay all shipping and handling charges where applicable.

3. Purchasers claiming exemption from such taxes must submit resale or exemption certificates or other proof of exemption. Out-of-state Purchasers taking delivery in New York must provide an OSR certificate or pay applicable taxes due. All purchasers represent that they are not seeking to acquire goods for personal, family, or household purposes, but are bidding for resale purposes; and those submitting OSR's additionally represent that they are professionals, knowledgeable and fully aware of what they are purchasing, a representation upon which STACK'S relies in agreeing to sell to Purchaser. Buyers picking up lots may be required to confirm this agreement in a separate writing.
4. STACK'S is not responsible for your errors in bidding. PLEASE BID ON THE CORRECT LOT.

5. All persons seeking to bid, whether in person, by an agent or employee, or by mail, must have a catalogue and register to bid. By submitting a bid, whether in person, by mail, or through an employee or agent, the bidder acknowledges receipt of the catalogue, and agrees to adhere to these terms of sale. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid.

6. By bidding, purchasing or offering to purchase in this sale, even if as an agent, or on behalf of a corporation or for another individual, each bidder personally guarantees prompt payment and agrees to be personally liable for the consequences of bidding; all bidders also personally guarantee prompt payment in full, including without limitation, BUYER'S FEE, taxes, surcharges, postage, handling charges, storage costs and insurance charges.

7. STACK'S reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized.

8. STACK'S reserves the right to impose a late charge, based solely upon Purchaser's failure to remit full and timely payment, and which late charge is not related to any necessary storage of the material purchased. Said late charge is calculated at a rate of 1½% per month (18% per annum), based on the purchase price if payment has not been made in accordance with these Terms and Conditions of Sale. Purchases not collected within thirty (30) days of the date of sale may, at the sole option of STACK'S, be resold for Purchaser's account by STACK'S, with Purchaser liable for any deficit after STACK'S receives a commission for the same in accordance with its agreement, and thereafter deducts all expenses associated with the sale, including reasonable attorneys fees.

9. Bids are NOT accepted from minors. By bidding in this sale, the bidder represents and certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer sale or consumer credit transaction.

10. **Title remains with STACK'S until paid for in full.** Should Purchaser take any action under Title 11 of the U.S. Code, or any state insolvency law, Buyer agrees to promptly return to STACK'S, any lots not paid for. The Buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the Buyer.

11. The highest bidder as determined in the sole discretion of the auctioneer shall be the Buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.

12. If you bid by mail, **mail your bid sheet early.** Mail bidders agree to and are subject to these terms of sale just as if they were floor bidders.

13. The auctioneer reserves the right to refuse ridiculously low bids, which in the auctioneer's sole discretion, are felt not to have been made in good faith. The auctioneer reserves the right to open the lot at a reasonable price determined solely by the auctioneer. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the Seller, a mail bidder, STACK'S, or another participant in the sale. The auctioneer may bid further on behalf of the Seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloguing, based on experience and comparable sale, if applica-

ble. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.

14. Auction sales are not approval sales. In the event of non-payment by the Buyer, STACK'S reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including Buyer's consent to file a financing statement without need of Buyer's signature, and to offset any sums due on any future consignment or purchase or monies or goods in possession of STACK'S or its assigns.

15. All bidders are encouraged to carefully examine all lots prior to the sale. No lots will be shown at the sale. STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein. All floor buyers should acquaint themselves with the property sold since STACK'S will assume that they have done so and requires that the Purchaser represent that they have. Bidders are deemed to have satisfied themselves as to all of the matters set forth in the terms of sale.

16. STACK'S, as agent, offers a LIMITED WARRANTY that any numismatic item sold is authentic (i.e., not counterfeit, that its date or mintmark has not been altered, and that the coin has not been repaired as those terms are used in the trade). Except as set forth in this limited warranty and as may be required by the arts and cultural affairs law, and any other law or regulation, all other warranties of authenticity of authorship, whether express or implied, are hereby disclaimed.

17. Except as otherwise stated herein, all items offered in this catalogue are GUARANTEED TO BE GENUINE and correctly attributed as defined below.

18. (a) NO LOT may be returned for any reason whatsoever without the prior written consent by STACK'S, or, in any event, if it has been removed from its original container. **No lots purchased by those who have viewed the lots may be returned,** unless the limited warranty provided in these terms of sale permits it.
(b) Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or lot. The term "proof" or "specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution.
(c) STACK'S does not represent that a numismatic item has or has not been cleaned; that any toning is natural or artificial; that any coin catalogued will meet the standards, or the grade, of any third party or third party grading service; that a numismatic item has a particular provenance or pedigree; that a numismatic item is struck or not struck, or produced or not produced in a particular manner or style.
(d) Adjectival descriptions and terminology (which can and does vary among experts and knowledgeable purchasers), when utilized in the catalogue, are strictly the opinion of the cataloguer and shall not be deemed to be part of the description; i.e. it is an opinion only and not a warranty of any kind.
(e) Grading descriptions in this catalogue are provided strictly for the convenience of those who bid by mail and who are unable to personally view the coins, and represents the cataloguer's opinion of its state of preservation. Those attending the sale, and those bidders who actually view the lots should draw their own conclusions as to the state of preservation or grade of the numismatic item.
(f) STACK'S may utilize numerical or adjectival descriptions, and may include lots that have been graded by others. Opinions offered with respect to numismatic properties offered for sale by STACK'S are made at the time that the numismatic item is catalogued, and do not refer to any prior or subsequent time.
(g) Where STACK'S sells a numismatic item graded and encapsulated by a grading service, Buyer acknowledges and agrees that other grading services, STACK'S or knowledgeable purchasers might reach a different conclusion as to the state of preservation of a particular item, and that STACK'S has presented the service's description of the encapsulated item for accommodation only. Any such information provided by STACK'S is the opinion of the third party, without recourse against STACK'S in any way whatsoever.
(h) **Except as otherwise expressly stated in the Terms of Sale, STACK'S and its agents and employees make no warranties or guaranties or representations, and expressly disclaim all warranties and guaranties and reprcsentations, including, without limitation, a warranty of merchantability, in connection with any numismatic properties sold by STACK'S.**
(i) All oral and written statements made by STACK'S, are statements of opinion only and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of STACK'S has authority to vary or alter these Terms of Sale. Any alteration shall be effective only if in writing and signed by a member of the firm.
(j) If not so stated expressly, the grade, artisanship, provenance, or attribution is the firm's opinion only on which no third party, including the bidder, is entitled to rely.
(k) STACK'S assumes no risk, liability or responsibility for the material (or other) facts stated concerning the numismatic item, except as specified herein.

19. Unless otherwise stated, STACK'S acts only as agent for a Consignor and makes no independent warranty of title. STACK'S offers the following LIMITED WARRANTY to Buyers with respect to all numismatic items offered for sale. STACK'S warrants to all Buyers that the Consignor or the Seller has warranted good title to property offered for sale. Any such warranty is predicated on the Owner or prior owner making the same warranty to STACK'S, upon which the firm relies. In the event that it is finally determined that the Purchaser has not acquired transferable title, STACK'S shall reimburse the Purchaser (if full payment has already been made) in accordance with these Terms of Sale, and Buyer agrees that this is full compensation for any loss whatsoever, whether actual or otherwise. Tender of the check by STACK'S to Buyer at the address specified on the bid sheet or registration form shall end the obligation of STACK'S to the Buyer, even if the check is not endorsed or cashed. STACK'S and the Consignor make no representations or warranty that the Purchaser acquires any reproduction rights or copyright in property purchased at the sale.

20. STACK'S further expressly disclaims all warranties relating to the grade, condition, identification of the periods or date of coining or manufacture or methods of manufacture of property which is inaccurate, or may be proved inaccurate, by means of scientific process or research which is not generally accepted for use until after the sale.

21. STACK'S reminds the Buyer that the grading or condition of rare coins may have a material effect on the value of the

items purchased; that others may differ with the grading opinions or interpretations of STACK'S; that such difference of opinion (including whether the coin has been cleaned, or is or is not of a particular grade or quality) is not grounds to return an item purchased; and that all sales of items viewed by a Purchaser in advance of a sale, even if the sale is by mail, are final.

22. By purchasing in this sale, Buyer agrees that they shall have no recourse against the Consignor for any reason whatsoever. In the event that a warranty is offered with respect to grade or state of preservation or condition, it shall be a specific warranty, in writing, signed by a member of STACK'S, and shall specify its terms and conditions and duration. If any numismatic item is damaged in its removal from encapsulation, or during its encapsulation, it is at the sole risk of the Purchaser. Because of the fungibility of numismatic items, any item removed from its holder may not be returned for any reason whatsoever.

23. (a) On any claim made by a bidder, STACK'S must be advised in writing sent within seven days after receipt of the material, or the date of the sale, whichever is the later; these dates apply whether or not the Buyer has received the material. The disputed property must be returned to STACK'S in the same condition as sold by STACK'S, in the same holder.
(b) These conditions are binding and absolute unless varied in writing by a principal of STACK'S or if the bylaws, rules or regulations of the Professional Numismatists Guild, Inc., provide for a longer period, or give the Buyer a greater right, in which case such bylaws, rules or regulations shall prevail. Any and all claims of the Buyer made in violation of the Terms of Sale shall be deemed waived, and the Buyer shall be without further recourse.

24. If STACK'S, in its sole discretion, determines that any numismatic property is substantially and materially different from that represented in the catalogue of sale, or in any written advertisement or material, the sale shall be cancelled and STACK'S shall refund the purchase price to the Buyer. Unless provided otherwise in these terms or the PNG bylaws, that shall be STACK'S sole obligation to Buyer.

25. The auctioneer and cataloguer, STACK'S, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items (other than its commission), and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The Consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any Buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, and any other applicable surcharges, postage, handling, insurance fees and taxes, without rebate of any kind whatsoever, unless provided for otherwise by contract with the auctioneer. The auctioneer reserves the right to make accounting adjustments in lieu of payment. Settlement will follow the auction. The prices realized reflect the final price called by the auctioneer and may include a bid of a consignor reacquiring their lot.

26. STACK'S, the auctioneer, and employees are "insiders" and may have access to confidential information not otherwise available to the public with respect to value, provenance, availability, and other factors. Purchasers should make themselves acquainted with the numismatic items that they are purchasing and avail themselves of the services of outside consultants prior to engaging in any purchase. Bids are so much per LOT. No lots will be broken up unless otherwise stated.

27. No bidder shall have any claim against the auctioneer, or STACK'S, for improper sequence of offering a lot.

28. On bullion items, bullion-like items, and encapsulated items graded by a grading service, Buyer agrees that there shall be no right of return for any reason whatsoever. Buyer further agrees that due to market volatility, in event of non-payment, STACK'S shall be entitled to damages that are the greater of selling price or market, together with any supplementary or additional costs.

29. STACK'S at any time may rescind the sale in the event of non-payment or breach of the warranty of title.

30. The sole remedy that any participant in the auction shall have, whether bidding in person, by mail, or through an employee or agent, for any claim or controversy arising out of the auction shall be a refund of the original purchase price and premium paid, if any. Interest shall be paid by STACK'S at a rate of no greater than nine per cent (9%) per annum, up to a maximum of six (6) years, unless the rules of the Professional Numismatists Guild, Inc. provide for a higher rate of interest or a longer period of time, in which case such rules shall prevail. A lower rate, or shorter period, may be decided by the arbitrators. Upon payment as determined by the arbitrators, or in full at the maximum rates set forth above, or at an agreed rate, STACK'S shall be deemed released from any and all claims of the bidder arising out of or in connection with the sale of such property. Purchaser agrees to execute prior to delivery of any refund any documents reasonably requested to effect the intent of this paragraph. By bidding in this sale, all bidders consent to these terms and all other terms of these conditions of sale.

31. STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of or in connection with the sale of any property by STACK'S to Purchaser. All bidders, even if unsuccessful purchasers, agree to abide by this condition, and all other conditions of sale.

32. All rights granted to the Purchaser under the within terms of sale are personal to the Purchaser. Purchaser may not assign or transfer any of these rights to any other person or entity, whether by operation of law or otherwise. Any attempt so to assign or transfer any such rights shall be absolutely VOID and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Sale and terms of warranty on any bidder or Purchaser.

33. "Purchaser" shall mean the original purchaser of the property from STACK'S and not any subsequent owner or other person who may have or acquire an interest therein. If Purchaser is an agent, the agency must be disclosed at the time of sale, otherwise the benefits of the warranty shall be limited to the agent and not transferable to the undisclosed principal.

34. Should any third party attempt to utilize any warranties contained herein, they shall first give STACK'S thirty (30) days written notice by Registered Mail or Certified Mail Return Receipt Requested during which time STACK'S may,

should it choose to contest the third party's claim, ask the Professional Numismatists Guild, Inc., or the American Arbitration Association to appoint a panel of three arbitrators skilled in the field to make such a determination at New York, N.Y. By seeking to use such remedy, the third party unequivocally and without reservation consents to binding arbitration, and its conclusive and binding determination of any alleged damages as a sole remedy. With respect to any other pertinent notice requirements, venue and personal and subject matter jurisdiction, said third party is bound to the provisions pertaining to bidders, buyers and purchasers, as otherwise provided for in these Terms of Sale.

35. In the event STACK'S shall, for any reason, be unable to deliver the property sought to be purchased, its liability therefore shall be limited to the rescission of the sale and refund of the purchase price and buyer's premium. **STACK'S hereby disclaims all liability for damages, incidental, consequential or otherwise, arising out of its failure to deliver any property purchased, and all bidders agree to this disclaimer.**

36. If it is determined that a bailment relationship exists while the material purchased is being held by STACK'S, for Purchaser, said relationship constitutes a gratuitous bailment only, solely for the benefit of the purchaser/bailor, as defined by the laws of the State of New York.

37. As a condition of bidding, bidder acknowledges that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that **any claim or controversy whatsoever arising out of this sale shall be settled as follows:** if demanded by either buyer, or STACK'S by binding arbitration at New York, New York, under the rules then obtaining of the Professional Numismatists Guild, Inc., or as PNG rules may provide, the American Arbitration Association. In the event that a dispute arises between STACK'S and a non-member of the PNG, this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. In any controversy concerning non-payment, STACK'S shall have the right to proceed by arbitration or by a proceeding in any court of competent jurisdiction in the City, County, and State of New York, whichever is first commenced by STACK'S. The arbitrator shall not have the power to alter the terms of condition of sale. Judgment on any award may be entered in any court of competent jurisdiction. The arbitrators, and any court, shall award the prevailing party costs and reasonable attorney fees. By bidding in this sale you agree to be bound by the arbitration provisions of the PNG as described above. Commencement of an arbitral proceeding, or confirmation of an award, as well as any notice requirements connected with such proceeding, and any other required service of process, may be made by STACK'S upon all bidders by registered or certified mail directed to the address of the bidder or purchaser as listed on the bid sheet or application or form required at the time that a bidder number is issued, or by facsimile transmission with proof of receipt. Bidder agrees that such service shall constitute full in personam jurisdiction. The venue for such proceedings shall be the City of New York, State of New York and each bidder agrees to in personam (personal) jurisdiction of the City of New York, State of New York. In all cases, the maximum liability of STACK'S for any item sold shall be limited to the official price of record of the item at this sale, without provision for consequential damages, or any other damages of any kind whatsoever, unless the PNG rules provide otherwise.

38. If the Purchaser fails to comply with one or more of these Terms and Conditions of Sale then, in addition to all other remedies which it may have at law or in equity, STACK'S may, at its sole option, either (a) cancel the sale, retaining as liquidated damages all payments made by the Purchaser, it being recognized that actual damages may be speculative or difficult to compute, or (b) sell some or all of the numismatic property and some or all other property of the Purchaser held by STACK'S, in a quantity sufficient in the opinion of STACK'S to satisfy the indebtedness, plus all accrued charges. More than one such sale may take place at the option of STACK'S. Such sale may take place without notice to Purchaser; if STACK'S gives notice, it shall be by regular mail to the address utilized on the bid sheet, consignment agreement or other address known to the firm. Such sale will be at STACK'S standard commission rates at public or private sale, within or without the City of New York, at which time (if the sale be at auction) the defaulting party shall not bid. The proceeds shall be applied first to the satisfaction of any damages occasioned by Purchaser's breach, and then to the payment of any other indebtedness owing to STACK'S, including without limitation, commissions, handling charges, the expenses of both sales, reasonable legal fees and collection agency fees and any other costs or expenses incurred hereunder. If a lot or numismatic item is not paid for, and is sold by STACK'S for Purchaser's account, in accordance with the Uniform Commercial Code, STACK'S shall not be required to account to the Purchaser for any excess proceeds. Purchaser is also liable to STACK'S if the proceeds of such sale or sales is insufficient in the opinion of STACK'S to cover the indebtedness. If other property of Purchaser is also sold, any excess of proceeds will be remitted to the Purchaser after first deducting the expenses set forth above. If Purchaser fails to remit sums due to STACK'S, Purchaser grants to STACK'S a lien with respect to such sum, with interest to accrue thereon at the judgment rate, until actually paid, which lien shall apply against any property of Purchaser, including any future goods of Purchaser coming into possession of STACK'S. **Purchaser hereby waives all the requirements of notice, advertisement and disposition of proceeds required by law, including those set forth in New York lien law, article 9, sections 200-204 inclusive, or any successor statute, with respect to any sale.** Purchaser waives a right to redeem.

39. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No bidder or prospective bidder or purchaser or prospective purchaser shall have recourse as a result of any postponement. In any event, no person may bid without registering, and ALL REGISTERED BIDDERS including mail bidders and agents by registering or bidding **agree to all of the above Terms and Conditions of Sale.**

40. By bidding or offering to bid, bidders acknowledge that they have read all of the Terms and Conditions of Sale and warranty contained herein and that they accept these terms and conditions without reservation. STACK'S reserves the right to vary the Terms and Conditions of Sale by rider or other means communicated to bidders. By purchasing from STACK'S, whether present in person, or by agent, by written bid, telephone or any other means, the bidder agrees to be bound by these Terms and Conditions of Sale.

The David Queller and Family Collection

The David Queller and Family Collection began when David bought his first Red Book in 1954 and started to put together a type set of U.S. coins. With the assistance of his wife Libbie and their four children, David set out to build a collection that would grow to encompass all of the copper, silver and gold coins of the United States.

Over the years, as the collection developed through purchases made at auction and from dealers, so did the family's love of numismatics. The hobby they shared helped to forge a closer relationship between the parents and their children. David and Libbie made numismatics a frequent topic in their home, nurturing the children's growing education and knowledge of the numismatic fields. Many hours were spent reading auction catalogs and reference books, researching pedigrees and learning about coins. In fact, Libbie and David's son, Howard, not only acquired a profound interest in United States coins, but has branched out to form a significant collection of high quality ancient Roman coins as well.

The David Queller and Family Collection is extensive, built over many years with patience, determination, and a lofty standard for quality. David led the family in its acquisitions, and with the help of Ben, Norman, Harvey and Larry Stack honed a keen appreciation for the rarity and beauty of American coins.

The Queller family, though still active in the field, is offering this first portion of the collection to be shared with the numismatic fraternity. Catalogued here are many choice specimens worthy of considerable bidder interest due to their quality and pedigrees from the outstanding sales of the past decades. This grouping represents a beginning, with other sections of this important collection to be offered in the future.

Stack's is privileged to offer this outstanding collection that was built with pride and has flourished for over forty years.

The reverse shows only three berries at left, four at right with a berry under T adjoining a long spike extending toward the left foot of A. This coin is comparable to Eliasberg:891 called MS-64 which showed identical die characteristics, though its obverse crack extended only from Y to bridge of the nose. ***(SEE COLOR PLATE)***

U. S. MERCURY DIMES

A SMALL OFFERING OF HIGH GRADE CIRCULATED 1916'D' DIMES

As most collectors know, the 1916'D' is the key date to the Mercury Dime series. With a mintage of only 264,000 pieces, this date was subject to heavy counterfeiting. The coins offered herein have all been authenticated by ANACS and are each accompanied by a certificate of authenticity. A splendid opportunity to obtain an authentic example of this date in a highly collectible grade range.

Lot No. 142

142 **1916'D'** Choice About Uncirculated. Full frosty mint lustre with some faint friction at the central high points. A nicely struck example with wonderful eye appeal.

Lot No. 143

143 **1916'D'** Another. About Uncirculated. Medium lilac-russet toning with underlying mint frost still quite apparent. There are a few trivial microscopic marks at the lower left obverse which hardly detract. Sharply struck, and quite desirable.

Lot No. 144

144 **1916'D'** A third. Extremely Fine. Toned a pale gray with deeper devices. The surfaces still show traces of mint lustre adhering to the protected areas of the design.

Lot No. 145

145 **1916'D'** A fourth. Extremely Fine. A pale gold specimen with considerable mint frost evident in the devices.

Lot No. 146

147 **1926, 1936'S' Choice Brilliant Uncirculated,** and nearly of gem quality. Both with split bands and full satiny mint lustre. **2** pieces.

148 **1941 Choice Brilliant Proof.** Pale cloudy toning over deeply mirrored surfaces, sharply struck.

151 **1942'S'** A lovely partial roll of this date. **Choice Brilliant Uncirculated** or better, with a high percentage of the coins worthy of a full gem designation. Well matched and displaying lovely satiny mint lustre. **44** pieces.

The fields are fully mirror-like, and the central devices are sharp and well struck. *Only 600 Proofs were struck,* in this **Proof-only year.** PCGS PR62.

U. S. QUARTERS

GEM 1806 DRAPED BUST QUARTER

Condition Census

Lot No. 156
(Enlarged)

156 **1806** Browning 3. **Gem Brilliant Uncirculated, Condition Census.** A very important example of the second year of the type, with a draped bust obverse and heraldic reverse motif. Both sides are bright white and untoned, with full cartwheel lustre and considerable mint frost remaining, even in the fields. Somewhat softly struck in the centers, but the design detail elsewhere is sharp and bold. Solidly lodged in the Condition Census for the Browning 3 variety of this year, and an interesting and attractive specimen. ***(SEE COLOR PLATE)***

157 **1807 4 Berries.** Br.1. Very Good/Fine, gray, blue, and pale rose toning on both sides. Last year of issue of this four-year type, using the reverse of 1805 (Browning 4); **1836** Br.1. Very Good to Fine, mostly pale gray with a trace of old corrosion on the reverse. Struck from later states of the dies, the obverse broken across. **2** pieces.

U. S. CAPPED BUST QUARTERS

CHOICE UNCIRCULATED
1815 CAPPED BUST QUARTER

Condition Census

Lot No. 158
(Enlarged)

158 **1815** Br.1. **Very Choice Brilliant Uncirculated,** virtually a gem. **Condition Census** for the variety. Both sides are bright white and untoned, with just a few very faint traces of pale gold in some places. The coin is remarkably lustrous, with nearly full frost remaining, and unbroken cartwheel lustre visible on the obverse and reverse. Centers are sharp, with full definition in the curls below Liberty's ear and the eagle's breast feathers on the reverse. The curls over Liberty's forehead are typically soft, as this design area continually plagued the mint with problems of soft striking. This would make a very nice type coin, since it combines high grade, Condition Census, and first year of issue. ***(SEE COLOR PLATE)***

159 **1827 25/50C.** Br.3. About Uncirculated, bright silver in color with just a faint wisp of russet around portions of the obverse and reverse devices. The surfaces are both bright and reflective, and offset the types. Sharply struck almost everywhere, even the stars show full central detail. Holed at the top, skillfully plugged, the all important reverse denomination blunder not really affected. A very scarce Quarter variety, and one of the more spectacular errors to be found in any denomination series.

SPLENDID GEM 1831 QUARTER

Lot No. 160

160 **1831** Br.4. **Gem Brilliant Uncirculated.** Square-base 2, an extra line at left end of crossbars identify this lightly gold-toned gem. A faint sheen of aqua appears in the frosty field. PCGS MS65.

161 **1833** Br.1. Variety with period after C. **Very Choice Brilliant Uncirculated.** An attractive example, toned in medium gray on the obverse, the reverse a lighter shade, both sides enhanced with pale gold and delicate rose toning. Full cartwheel mint lustre can be seen on the obverse and the reverse. Struck from the usually seen rusted state of the obverse die. A very pleasing specimen, and one well suited for inclusion in a high grade type collection. NGC MS64.

162 **1836** Br.2. Extremely Fine, once lightly cleaned, pale gray and untoned. Reverse die broken diagonally. Old scratches above eagle's head; **1853 Arrows and Rays.** About Uncirculated, bright and lustrous, white and untoned. One year type, the reverse rays were removed from the design in 1854. **2** pieces.

U. S. LIBERTY SEATED QUARTERS

163 **1853 Arrows and Rays. Choice Brilliant Uncirculated,** a very attractive specimen of this popular one-year type. Both sides are beautifully toned in medium gray, with highlights ranging from iridescent rose to delicate blue. Well struck in most details, this would make a very worthwhile type coin.

PROOF 1857 QUARTER

164 **1857 Brilliant Proof.** Both sides are lightly toned, in pale gray shades, that on the reverse a slightly deeper hue. The surfaces are fully mirror-like and brilliant, while the central devices are sharply struck up. The Proof mintage for 1857 is unrecorded, but was undoubtedly extremely low. In fact, this is a very tough date to locate in a condition anywhere close to this, and accordingly, this coin should be carefully considered by specialists in the denomination and series. PCGS PR61.

Lot No. 165

165 **1874 Arrows. Choice Brilliant Proof,** a lovely specimen with frosty central devices offset against full mirror fields. Popular, two year only type, arrows were removed from the obverse in 1875. A few light hairlines can be seen. *Only 700 Proofs were struck.*

166 **1876'CC'** About Uncirculated, pale gray in color with traces of darker gray toning around the rims. Well struck on both sides, with most of Liberty's hair details full and the eagle showing nearly complete feather definition; **1878'CC'** Very Fine, even gray in color. A decent and problem free example of this semi-key date. **2** pieces.

Lot No. 167

167 **1879 Choice Brilliant Proof,** very nearly gem, just a few hairlines away. Blazing cartwheel lustre over full mirror fields accenting frosty central devices. This piece has very attractive eye appeal and outstanding frost detail. Low mintage date, *only 13,600 business strikes and 1,100 Proofs were struck.*

168 **1880 Choice Brilliant Uncirculated,** fully prooflike. A lovely example of this issue, a very low mintage date and one which is very tough to locate in this exalted condition. Both the obverse and reverse of this piece are fully mirror-like, and the rims are well squared off. Both sides are pleasingly toned, in pale russet shades. Some may well believe this to be a Proof, it certainly has many of the characteristics thereof. PCGS MS63.

169 **1883 Choice Brilliant Proof.** Both the obverse and reverse of this piece are lightly toned in one or two areas, in a pale russet and golden brown shade. The piece, elsewhere, is bright and untoned, and the fields are fully mirror-like. The central devices are pleasingly frosted. Another popular, low mintage date. *Only 1,039 Proofs were struck.* PCGS PR63.

Lot No. 170

170 **1885 Very Choice Brilliant Proof, nearly gem.** Amazingly brilliant, with deep mirror fields, graced by iridescent blue and deep russet around the rims. *Only 930 Proofs were struck* in this low mintage year. This specimen is very attractive.

171 **1891** Choice About Uncirculated. A faint blush of lilac toning over frosty mint lustre.

U. S. BARBER QUARTERS

172 **1892'O' Choice Brilliant Uncirculated.** Full mint lustre can be seen on both sides, creating perfectly unbroken cartwheel lustre. The obverse and the reverse are lightly toned in iridescent gold, with traces of pale blue around the rim. A very nice example of the first year of issue of the type from the New Orleans Mint.

Lot No. 173

173 **1893 Gem Brilliant Uncirculated.** Rich satiny mint lustre beneath deep iridescent olive-gold and mauve toning. A splendid specimen!

174 **1895 Brilliant Proof,** with claims to the choice category. Delicate lavender centers with golden brown peripheries.

175 **1902 Brilliant Uncirculated,** with claims to the choice category. Varying shades of russet and olive-gold toning on either side. PCGS MS62.

176 **1903'O' Brilliant Uncirculated.** Deep steel and flashing liquid gold surround clear silver centers on this scarce New Orleans coin.

177 **1904 Brilliant Proof,** nearly choice, toned in pale russet around the obverse rim. A few light hairlines are noted and a nearly hidden pin scratch on the obverse. *Only 670 Proofs were struck.*

178 **1906 Choice Brilliant Proof.** This near-gem exhibits colorful and variegated russet and ebony toning over is deep mirror beauty.

179 **1908 Choice Brilliant Uncirculated.** Both sides of this specimen display a blend of lavender and golden toning over satiny surfaces. PCGS MS63.

180 **1909'D' Choice Brilliant Uncirculated.** Attractively toned in pale gray and light rose shades, this is a pleasing example of a branch mint date which is difficult to locate in this high grade. NGC MS63.

181 **1912 Brilliant Uncirculated.** Russet and tan toning with a splash of light violet on the reverse.

182 **1916'D' Choice Brilliant Uncirculated.** Satiny mint lustre enhanced by delicate lavender-gold toning. NGC MS63.

U. S. STANDING LIBERTY QUARTERS

183 **1917** Type I. **Gem Brilliant Uncirculated.** Wonderfully full Head and shield, delicate silver lustre laved in salmon pink and steel distinguish this splendid coin.

184 **1917** Type 1. Another. Choice About Uncirculated, three quarters head, full shield. Bright and lustrous, second year of the type, old obverse fingerprint.

185 **1917** Type 1. About Uncirculated, lustrous, a couple of toning spots, full head and shield details; **1937'S' Choice Brilliant Uncirculated,** lustrous, light russet toning around the rims. A nice type pair. **2** pieces.

186 **1917** Type II. **Brilliant Uncirculated.** Full Head, frosty silver lustre complements a boldly detailed strike.

Lot No. 187

187 **1919 Gem Brilliant Uncirculated.** A full shield and nearly a full head. Splendid olive-gold and iridescent toning on either side.

CHOICE 1924'D' QUARTER

Lot No. 188

188 **1924'D' Very Choice Brilliant Uncirculated. Nearly full head.** Bright, blazing cartwheel lustre can be seen on both sides, particularly the reverse. The fields are bright and frosty, and the piece is toning-free save for a faint trace of medium gray around the rim. Liberty's head is nearly full, and the rivet details in her shield are similarly nearly complete. This is a very attractive example of a Denver Mint issue which is tough to locate in higher grades with full details showing.

189 **1926 Choice Brilliant Uncirculated,** or slightly finer. Full head details can be seen. Both sides of this pleasing specimen are fully lustrous, and are deeply toned in gray with iridescent rose highlights.

190 **1928'D' Choice Brilliant Uncirculated.** Close to gem, this reflective satin-silver coin is enriched by the deepest lustre.

191 **1929 Choice Brilliant Uncirculated.** Virtually full head, rich silver lustre glows under clear gold.

U. S. WASHINGTON QUARTERS

192 **1932** About Uncirculated; **1934** Heavy Motto. **Choice Brilliant Uncirculated; 1935** About Uncirculated, lavender toning. **3** pieces.

193 **1932'D' Choice Brilliant Uncirculated.** A lovely, nearly pristine example of the first year of issue of the Washington Quarter design. This was originally intended to be a commemorative Quarter Dollar issue, but was subsequently changed to a circulation one. The issues of 1932 are particularly popular, not only because they are the first year of issue, but also because they bear some "commemorative" cachet.

194 **1937 Choice Brilliant Proof.** Assertive reflective silver shows just a touch of whitish toning.

(Enlarged)

195 **1793** Breen 4. **Mint State-60.** A lovely, rich olive brown specimen. The obverse is perfectly centered, while the reverse is ever so slightly off center to the right. Both surfaces appear smooth, hard, and semi-glossy to the naked eye. EXTREMELY FINE 1793 AMERI. LARGE CENT

A Classic Early American Coin

Lot No. 212
(Enlarged)

212 **1793 Chain Cent. AMERI. variety.** Sheldon 1. Extremely Fine-45. A classic example of early Americana. Both sides are an even, smoothly distributed deep olive brown, the reverse slightly lighter in shade. Some surface porosity is noted on the obverse, but the major design type is clear, Liberty's profile is sharp, her eye is full, and in a raking light individual hair strands can be seen to full effect. **The reverse is classic,** with a full chain, central ONE CENT and fraction detail, and full UNITED STATES OF AMERI. peripheral legend. Walter Breen once suggested that the AMERI. variety was the first Large Cent type struck. While there may be no documentary evidence for such a belief, it is clear that this is a classic in the series, one always avidly pursued by advanced collectors, whether they be variety or type enthusiasts. ***(SEE COLOR PLATE)***

PLEASING 1793 CHAIN AMERICA CENT

Lot No. 213
(Enlarged)

213 **1793 Chain AMERICA.** S.3. Very Fine-30. A very acceptable specimen of this early type. Both the obverse and reverse are a nice, medium olive brown. The surfaces on both sides are smooth, hard, and appear glossy to the naked eye. One short hairline across Liberty's features is noted, apart from that there are no other detracting marks requiring specific mention. Our nation's name is spelled out in full as AMERICA on the reverse of this variety of the 1793 Chain Cent. It has long been presumed that the AMERI variety was struck first and that the abbreviation was found to be less desirable than the full name. ***(SEE COLOR PLATE)***

CONDITION CENSUS 1793 HORIZONTAL STEM CENT

Lot No. 214
(Enlarged)

214 **1793 Wreath.** Sheldon 8. Horizontal stem. Extremely Fine-40. Magnificent strike, delightful light glossy brown fields and sharply defined devices give this vine and bars edge Cent the appeal of higher grade. Finely beaded borders testify to the meticulous centering of this example, which would place in the lower third of the CQR Condition Census. ***(SEE COLOR PLATE)***

EXCEPTIONAL CHOICE 1793 SHELDON 10 WREATH CENT

Lot No. 215
(Enlarged)

215 **1793 Wreath.** S.10. About Uncirculated-55. An exceptional specimen with lovely color and good surfaces. Both the obverse and reverse are toned a deep, steel mahogany shade which is even on both sides. The surfaces are smooth, hard, clear, and semi-glossy. Microscopic porosity may be noted in places, but this is essentially unnoticeable to the naked eye and largely unimportant. One small planchet pinch at the obverse rim at 3 o'clock is noted. On the obverse, Liberty's hair strands are sharp, full, clear, and sharply outlined. The letters and numerals in LIBERTY and 1793 are sharp, and some vein detail can be seen in the sprig of leaves above the date. On the reverse, the wreath is sharp, clear, and some leaves show inner detail. The berries are clearly outlined, and the letters in UNITED STATES OF AMERICA and the numerals in the fractional denomination are sharp. Vine and bars edge shows nearly complete detail. All in all, this is a lovely specimen, well suited for an advanced type or variety collection. ***(SEE COLOR PLATE)***

SUPERB 1794 SHELDON 29 LARGE CENT

Lot No. 216
(Enlarged)

216 **1794** S.29. About Uncirculated-55. A superb specimen of this variety, nicknamed by Sheldon "the ornate with the tailed reverse." The obverse and reverse are nicely toned, in rich olive brown shades. Both surfaces appear smooth and hard to the naked eye, and both show some original gloss. One or two small, minor patches of porosity are noted, but these are essentially insignificant. Hidden planchet split on the rim above I of AMERICA is noted, but cannot be seen on the obverse. This is a very pleasing specimen, showing full and sharp detail on Liberty's hair strands on the obverse and the leaves of the wreath on the reverse, and would fit nicely in an advanced collection of the denomination, or early American type. ***(SEE COLOR PLATE)***

217 **1794** S.57. About Good-3, damaged, edge hammered around.

LOVELY 1797 SHELDON 140 LARGE CENT

Lot No. 218

OUTSTANDING 1801 1/000 LARGE CENT

Lot No. 219
(Enlarged)

219 **1801 1/000 Fraction.** S.222. **Mint State-65.** An outstanding specimen, one of the finest we have ever had the pleasure of handling. The obverse of this piece is an even olive brown, with faint iridescent rose and blue highlights. The reverse is a combination of olive brown and iridescent gold, and also shares the blue highlights noted on the obverse. Liberty's hair strands are all sharp and individually separated, as are the lines in the bodice of her dress. On the reverse, the leaves of the wreath show some detail at the top, those at the bottom left and right being typically soft on the variety. The letters in UNITED STATES OF AMERICA and the error fraction, 1/000, are also sharp and clear. This is an interesting and ever popular variety, due to the error reverse, and in this condition an outstanding and special coin. ***(SEE COLOR PLATE)***

Unusually, this piece was very sharply struck, with full curl detail in Liberty's hair on the obverse and almost all the reverse leaves of the wreath showing inner definition.

222 **1814 Crosslet 4.** S.294. Fine-12. Even gray brown; **1814 Plain 4.** S.295. Fine-12, even brown, lighter on the high points; **1814 Plain 4.** S.295. Very Fine-10. Even brown, some porosity. **3** pieces.

U. S. QUARTERS

U. S. DRAPED BUST QUARTERS

A MAGNIFICENT 1796 QUARTER

Lot No. 396
(Enlarged)

396 **1796** Browning 2. **Specimen Striking,** equivalent to the modern **Brilliant Proof.** As we noted in our 1976 description of this coin, the piece is "...magnificent, glittering... absolutely breathtaking with its pale purple toning in the center, blending with sea-green and russet toning about its periphery." Liberty's hair is very sharp, and accounts for the softness on the eagle's head, which is always found weak when the front of the coin is well struck up. The obverse shows a full border of denticles, while the reverse denticles are a trifle soft at the bottom. The fields are bright mirror, with "flash" even inside the loops of the ribbon bows. There is evidence of striking at least twice, clearly to bring up the details in the dies. Again, as we noted in 1976, "The coin is simply so perfect in style and execution that it is medallic in nature." ***(SEE COLOR PLATE)***

Ex Stack's August 1976 ANA Convention sale, lot 934.

CHOICE ABOUT UNCIRCULATED 1804 BROWNING 1 QUARTER

Lot No. 397
(Enlarged)

397 **1804** Br.1. Choice About Uncirculated, an unusually high grade for what has been called "The rarest silver coin in Uncirculated condition." This specimen is toned in deep gray with iridescent blue and rose visible on both sides. Liberty's hair is fully struck up and shows complete definition and the stars on the obverse are sharp. On the reverse, the eagle's wing feathers are sharp and even its breast feathers show. A microscopic ding beside the fourth star is hardly worth noting. There is a die scratch, as made, between the eighth and ninth stars. Unaccountably not listed in Breen's census in the Browning revision, but had it been, it would have been ranked in seventh or eighth place. ***(SEE COLOR PLATE)***

Ex Reed Hawn Collection (Stack's, March 1977, lot 260).

HIGH CONDITION CENSUS 1805 BROWNING 2 QUARTER

Lot No. 398
(Enlarged)

398 **1805** Br.2. **Gem Brilliant Uncirculated,** and an outstanding and important coin. Both sides are beautifully toned in rose, gold, and russet in the centers. The peripheries are a bright and attractive iridescent blue. Sharp everywhere save those spots the type usually comes soft, such as the hair over Liberty's forehead, the eagle's breast, head, and shield. The R in LIBERTY is always weak on the right on this variety. **High Condition Census:** one of the finest of the variety, as noted by Breen in his revision of Browning. Struck from the perfect state of the obverse, and undescribed state of the reverse, the die clashed by the branch and an arcing clash mark running from cloud to OF to wing tip. ***(SEE COLOR PLATE)***

MINT STATE 1806/5 OVERDATE QUARTER

Lot No. 399
(Enlarged)

399 **1806/5 Overdate.** Br.1. **Choice Brilliant Uncirculated,** very nearly gem, an important example of this early overdate. Both the obverse and reverse are attractively toned in pale silver and gold shades, with iridescent lustre around the rims. Liberty's hair strands are sharp, and the eagle's neck and breast feathers are also clear. There is some softness in the vertical bars of the reverse shield. The overdate is sharp and clear. Struck from State II of the dies, which are usually found soft at the left rim and the stars in that position. While not quite in the Condition Census for the variety, this is an pleasing and attractive example of this popular, early overdate. ***(SEE COLOR PLATE)***

HIGH CONDITION CENSUS 1806 BROWNING 5 QUARTER

Lot No. 400
(Enlarged)

400 **1806** Br.5. **Choice Brilliant Uncirculated.** A very important coin. **High Rarity 6,** a rare variety. The centers are pale rose and gray, while the peripheries are pale green and rose. Liberty's hair details are nearly full, accounting for the softness in the center of the reverse, showing on the eagle's head, breast, and shield. The wings are full, however. **High Condition Census:** this may well be second or third finest recorded. While the coin resembles Grant Pierce: 598, they are not identical. Struck from State II of the dies. Some light digs by mouth and eye, a few others scattered within the reverse stars. ***(SEE COLOR PLATE)***

MINT STATE 1807 SMALL 0 QUARTER

Lot No. 401
(Enlarged)

401 **1807 Small 0.** Br.1. **Brilliant Uncirculated,** nearly choice. Pale gray fields, light gold and russet lustre around the protected areas. Mostly well struck on the hair and stars on the obverse, the eagle's wing and breast feathers struck up, just the center of the shield a trifle soft. Near the **Condition Census** for the variety and a lovely coin for the advanced collector. Struck from State II of the dies. Final year of issue of the Draped Bust/Heraldic Eagle type. ***(SEE COLOR PLATE)***

SECOND MINT STATE 1807 SMALL 0 QUARTER

Lot No. 402

402 **1807 Small 0.** Br.1. **Brilliant Uneireulated.** A second example of a variety which is rather tough to locate in this high grade. This specimen is mostly pale gray, with some areas of light gold lustre visible on both sides. Softly struck in Liberty's hair and the center of the shield, about as expected. Minor reverse rim marks; obverse rim slightly beveled, as made. Struck from State II of the dies.

Ex Coin Galleries' April 10, 1985 sale, lot 2077.

U. S. CAPPED BUST QUARTERS

GEM 1818/5 BROWNING 1 QUARTER

Lot No. 403
(Enlarged)

403 **1818/5 Overdate.** Br.1. **Gem Brilliant Uneirculated.** An outstanding example of the overdate, much rarer than the perfect date type. Both sides are a lovely, gold and gray in color. Full satiny lustre can be seen on the obverse and reverse. Both sides are sharply struck, with pleasing definition visible in Liberty's hair and the eagle's feathers. Struck from State II of these dies, clashed, and as a die state, scarce. ***(SEE COLOR PLATE)***

Ex Stack's May 1975 sale, lot 827; James A. Stack Collection (Stack's, October 1994, lot 347).

SPLENDID 1818 PERFECT DATE QUARTER

Lot No. 404

404 **1818 Perfect Date.** Br.2. **Choice Brilliant Uncirculated,** a perfect type coin! Very sharply struck everywhere, with full definition visible in Liberty's hair strands on the obverse and the eagle's feathers on the reverse. Perfect pale silver and gold toning, full mint lustre, and lovely, satiny fields, all mark this as an outstanding example for a major type collection. We note that the obverse die is always broken above Liberty's head, from the seventh through the tenth stars.

HIGH CONDITION CENSUS 1819 LARGE 9 QUARTER

Lot No. 405
(Enlarged)

405 **1819 Large 9.** Br.2. **Very Choice Brilliant Uncirculated,** very close to gem quality. Sharply struck, creating a brightly reflective and semi-prooflike specimen with "flash" in the vertical shield lines on the reverse. Pale gold toning over bright silver color can be seen. **High Condition Census:** this coin is specifically mentioned as one of the confirmed "Uncirculated" examples enumerated in Walter Breen's revision of the Browning reference on Quarters. Struck from State II of the dies, we note that the Large 9 variety is rarer than the Small 9. ***(SEE COLOR PLATE)***

Ex Reed Hawn Collection (Stack's March 1977, lot 268); James A. Stack Collection (Stack's October 1994, lot 349).

ATTRACTIVE 1819 SMALL 9 QUARTER

Lot No. 406

406 **1819 Small 9.** Br.3. **Brilliant Uncirculated.** An attractive and pleasing specimen with good detail in Liberty's hair and sharply struck on the eagle's wing and neck feathers. Mint lustre can be seen around the obverse stars, while the reverse fields are somewhat satiny. The obverse is toned rose and gold in the center, with iridescent blue around the rim. The reverse is similarly toned, gold and gray in the center, iridescent blue around the rim. Struck from State II of the dies.

Ex James A. Stack Collection (Stack's, March 1975, lot 16).

RARE MINT STATE 1820 SMALL DATE QUARTER

Lot No. 407
(Enlarged)

407 **1820 Small Date.** Br.4. **Brilliant Uncirculated.** A lovely specimen of this issue, which is quite rare in this high grade. Both the obverse and reverse are brightly reflective and semi-prooflike. Both sides are toned in gold, gray, and iridescent blue-rose. Somewhat soft in appearance on the usual high points, the areas that always appear weak on the type. Usually seen rust pits by the first star and between the leaf and 2 in the denomination on the reverse. There is a small microscopic obverse rim nick at 1 o'clock. ***(SEE COLOR PLATE)***

CONDITION CENSUS 1821 BROWNING 4 QUARTER

Lot No. 408
(Enlarged)

408 **1821** Br.4. **Choice Brilliant Uncirculated.** A lovely bright pale silver with gold highlights. Fully **prooflike,** with "flash" visible even within the shield lines on the reverse. Very sharply struck everywhere save for the curl on Liberty's forehead, which is almost always found soft on this type. **Condition Census:** this is the fourth finest listed by Walter Breen in his revision of Browning on Quarters. Struck from a state intermediate between I and II, clashed on the obverse as seen on State II but without the break at the 12th star. The reverse die is broken from the rim to the first E. ***(SEE COLOR PLATE)***

Ex River Oaks and Krugjohann II Collections (Bowers & Ruddy, November 1976, lot 533); James A. Stack Collection (Stack's, October 1994, lot 351).

HIGH CONDITION CENSUS 1822 BROWNING 1 QUARTER

Lot No. 409
(Enlarged)

409 **1822** Br.1. **Choice Brilliant Uncirculated.** A lovely specimen and certainly high in the Condition Census for its variety. The obverse is toned gray and iridescent rose with some blue highlights. Both sides are bright and reflective, the reverse prooflike, but with subdued "flash." A trifle soft on the top of Liberty's curls, the leading edges of the eagle's wings, and its talons. As sharp as the Browning plate coin, however, and coined from the perfect dies, the same ones used to make the Proofs of the year. ***(SEE COLOR PLATE)***

Ex "Alto II" sale (Stack's, October 1991, lot 711).

CHOICE UNCIRCULATED 1825/3 QUARTER

Full mint lustre, the fields beautifully satiny. Lot No. 411

411 **1828** Br.1. **Brilliant Uncirculated.** A lovely specimen, toned in gray with pale blue and rose highlights. Softly struck on E PLU on the scroll, tops of Liberty's curls, and one or two other places. Struck from State **I** of the dies.

Choice Very Fine, nearly Extremely Fine, with traces of lustre around the stars and LIBERTY on the obverse, and portions of the reverse periphery. The centers are a combination of pale gray and blue, while around the rims the coin is toned in light gold. Final year of issue of the type. **2** pieces.

U. S. CAPPED BUST HALF DOLLARS

ATTRACTIVE 1807 50/20C HALF DOLLAR VARIETY

589 **1807** Bust Left. Large Stars. 50/20C. O.112. Choice Extremely Fine, a really lovely example of this popular "multi-denominational" blunder. The obverse and reverse are both bright and reflective, and are toned in pale russet shades in places around the rims. Mint lustre can be seen in the protected areas on both sides, and across portions of the reverse fields. The centers are about as well struck for the grade as one might hope for, and the piece has only a modicum of circulation marks. This would make a nice coin for either the advanced type or the knowledgeable variety specialist.

590 **1809** O.102. Choice About Uncirculated, very close to Uncirculated, with luscious iridescent rose and russet toning highlighted by tinges of iridescent blue and green.

591 **1809** Normal Edge. O.106. Choice About Uncirculated, bright white lustrous and untoned.

592 **1812** Normal Date. O.107. Choice Very Fine; **1813** O.103. Choice Very Fine. **2** pieces.

593 **1813** O.106. **Choice Brilliant Uncirculated.** Bright white and untoned. Obverse rim flawed at lower left, reverse at upper left, as usually seen on this variety. In addition, the left side of the scroll on the reverse and the letters ED ST are usually found softly struck up. Clearly, something was wrong with the die alignment when this variety was struck at the mint.

CONDITION CENSUS 1821 HALF DOLLAR

Lot No. 594

594 **1821** O.107. **Very Choice Brilliant Uncirculated,** virtually a gem. **Condition Census,** solidly lodged in the middle of the range. A beautiful example of the Wide Date variety. Both sides are blazingly lustrous, with fully unbroken cartwheel lustre coruscating across both surfaces. The fields are bright, and the reverse is highly reflective, nearly semi-prooflike. Both sides show full design definition in most areas, and the centers are sharp and clear. This would make a lovely example as a type coin.

595 **1822/1.** O.101. Very Good, cut in Liberty's cap; **1826** O.110. Choice Fine. **2** pieces.

Lot No. 596

596 **1822** O.105. **Choice Brilliant Uncirculated,** very nearly gem quality. **A Condition Census candidate.** This specimen is attractively toned in even medium gray, with some darker flecks on the reverse. Full cartwheel mint lustre can be seen underlying the toning on both sides.

597 **1823** O.104. Double Profile. About Uncirculated, lightly flawed, once dipped; **1827/6** O.101. Extremely Fine, once cleaned, now light gold. **2** pieces.

598 **1825** O.117. About Uncirculated. Toned a deep olive-gray on either side; **1837** Choice About Uncirculated. Delicate gray toning over somewhat reflective surfaces. The fields display some faint graffiti on both obverse and reverse. **2** pieces.

599 **1827** Square Base 2. O.111. **Very Choice Brilliant Uncirculated,** nice pale gray in the centers, slightly darker gray toward the peripheries, a small spot of darker toning above the eagle's left wing. Full cartwheel mint lustre visible.

600 **1829** O.112. Extremely Fine, darkly toned; **1830 Large 0.** O.122. Choice Extremely Fine, for sharpness, cleaned. **2** pieces.

601 **1830** Small 0. O.115. **Brilliant Uncirculated,** bright and lustrous, pillowy frost on the obverse. A nice type coin.

602 **1830** O.117. Small 0. The die state with raised die lines above Liberty's cap on the obverse. A strong About Uncirculated specimen. Traces of russet-mauve toning over frosty mint lustre. The surfaces are well struck and quite appealing. NGC AU53.

CONDITION CENSUS 1832 HALF DOLLAR

Lot No. 603

603 **1832** Small Letters. O.110. **Very Choice Brilliant Uncirculated. Condition Census,** lodged in the middle of the range. Both sides of this interesting specimen are pleasingly toned in pale gray, rose and very delicate iridescent blue. The design detail in the centers is strong, that on the peripheries is rather typically weak. In fact, this variety is almost always found with TA and LUR on the reverse barely struck up, if at all.

604 **1832** Small Letters. O.111. Choice About Uncirculated, bright and fully lustrous with areas of mint frost still remaining, primarily around the protected obverse areas, but also across much of the reverse surface. Short pin scratch on obverse behind Liberty's head.

605 **1834** Large Date, Large Letters. O.102. **Brilliant Uncirculated,** very beautifully toned, in medium gray, blue and iridescent russet on both sides. A very nice example of the recut date variety. A small toning spot can be seen beside the first star.

606 **1834** O.109. Small date and letters. **Choice Brilliant Uncirculated.** Pale gold over silver and gray surfaces. An early die state, with the obverse die dots and the reverse die lump not yet formed.

607 **1834** O.111. **Brilliant Uncirculated,** very nearly choice, even pearl-gray with tinges of russet, some obverse hairlines.

608 **1835** O.107. Extremely Fine, medium gray toning and lustre; **1838 Reeded Edge.** About Uncirculated, nice charcoal gray, tiny reverse rim dent at top. **2** pieces.

609 **1837 Brilliant Uncirculated,** bright and lustrous, with pleasing cartwheel lustre and mint frost in the fields. Light traces of russet toning around the rims. Popular, two year only type, and really the only collectible date therein.

610 **1838** Reeded edge, HALF DOL. Choice About Uncirculated. Bold silver lustre is edged in peripheral russet and gold creating delicate beauty.

611 **1839** Reeded edge, HALF DOL. **Brilliant Uncirculated.** This remarkably lustrous coin shows no actual circulation, only a few contact marks and a hint of a gentle cleaning.

612 **1839** Another. Choice About Uncirculated. A semi-prooflike specimen with brightly reflective fields that are toned in pale gray shades. Some light circulation marks, parallel scratches above Liberty's cap, old dig on eyebrow.

U. S. LIBERTY SEATED HALF DOLLARS

613 **1842 Medium Date.** Choice About Uncirculated, surfaces tooled, toned since.

Lot No. 614

614 **1846 Tall Date.** About Uncirculated, mostly pale silver gray in color with just a few areas of russet and gold around the rims. This is a tough date to locate in this, or finer grades.

VERY RARE 1847
CHOICE PROOF HALF DOLLAR

Lot No. 615

615 **1847 Choice Brilliant Proof.** This glittering coin's deep mirror fields show a few hairlines and a subtle hint of clear gold. This is Breen's normal date obverse, of which he knew only 10 in Proof, with only three graded higher by the major grading services. PCGS PR63. ***(SEE COLOR PLATE)***

616 **1853 Arrows and Rays.** Choice Extremely Fine, bright white and untoned, with mint lustre remaining in the protected areas of the obverse and coruscating through the rays on the reverse. One year only type, rays were removed in 1854; **1853 Arrows and Rays.** Another. Choice Very Fine, light gray toning. **2** pieces.

GEM 1855'O' ARROWS HALF DOLLAR

One of the Finest Seen

Lot No. 617

617 **1855'O' With Arrows. Gem Brilliant Uncirculated. One of the Finest seen.** A really lovely and quite important example of this two year type, struck in 1854 and 1955, only. When the mint decided to reduce the weight of the Half Dollar in 1853, arrows were added beside the date to signify the reduction. This specimen, one of the nicest we have ever had the pleasure of handling, is gorgeously toned on both sides in a rich golden russet shade. The toning overlies full mint lustre, and accents full cartwheel lustre, which coruscate across frosty surfaces. The strike is sharp on both sides, with the stars showing nearly full inner detail, only the last two being somewhat soft in their centers. This coin, we are sure, will be a prize for the New Orleans Mint specialist or the Half Dollar enthusiast. ***(SEE COLOR PLATE)***

618 **1855'O' Arrows.** Choice Extremely Fine, brilliant and untoned, with original mint lustre visible in the protected areas on both sides. Two year only type; **1858** Choice Extremely Fine, bright white, once slightly dipped. **2** pieces.

619 **1856'O' Choice Brilliant Uncirculated,** nice medium gray, with full lustre and very pale rose and iridescent blue toning.

620 **1858** Choice About Uncirculated, virtually Mint State. Bright white and untoned, with nearly full cartwheel lustre on both sides. Tiny reverse rim tics are noted.

621 **1860 Choice Brilliant Uncirculated,** medium gray toning with highly attractive russet and rainbow hues in the center of the reverse. A lovely example of this early and low mintage date.

622 **1860'O'** About Uncirculated. A pleasing example of this penultimate New Orleans issue. Both sides are pale gray, with just a touch of russet at the top of the obverse; **1869** About Uncirculated, a tougher grade for this date, which usually survives in much lower condition. Both sides are toned in iridescent rainbow shades over pleasing gray. **2** pieces.

Lot No. 623

623 **1862 Choice Brilliant Proof,** with deep mirror fields accenting pleasingly frosted central devices. Just a few, light hairlines away from gem status. *Only 550 Proofs were struck* in this Civil War year. This is a particularly pleasing example.

624 **1863 Choice Brilliant Proof.** Deep rose-gold and blue iridescence toning. One of *only 460 Proofs struck.*

Lot No. 625

625 **1864 Very Choice Brilliant Proof.** Pleasing two-tone surfaces with pale blue iridescence at the rims. Another scarce Civil War Proof issue.

626 **1867 Choice Brilliant Proof,** with mirror fields lightly toned in russet and gray. Some obverse hairlines are noted. Better date, with a lower than usual mintage, typical of the Philadelphia output of this period. *Only 625 Proofs were struck.*

627 **1872'CC'** Very Good to Fine, even wear and pale gray toning. Key Carson City date; **1873 Arrows.** Choice Extremely Fine, bright white and untoned, with mint lustre visible in the protected areas on both sides. Some light circulation marks, none out of line for the grade. Two year only type. **2** pieces.

628 **1883 Brilliant Proof,** very nearly choice quality. The obverse and reverse are lightly toned in shades of pale gray and russet, with hints of delicate iridescent blue around the rims. The obverse and reverse fields are brightly reflective, while the central devices are somewhat frosty. This is a tough, low mintage date, with only 8,000 business strikes and *1,039 Proofs struck.* NGC PF62.

629 **1884 Brilliant Proof.** A low mintage date. Both sides are faintly toned in pale russet. Some hairlines and a short pin scratch are noted. *Only 875 Proofs were struck* out of a total low mintage of 5,275.

U. S. BARBER HALF DOLLARS

Lot No. 630

630 **1892 Choice Brilliant Uncirculated,** nearly of gem quality. Delicate golden toning over rich satiny mint lustre. Sharply struck and quite attractive. NGC MS64.

631 **1892** Another. Choice About Uncirculated, medium gray toning with areas of lustre remaining, some hairlines. First year of issue of the Barber type.

632 **1901 Brilliant Uncirculated.** Attractive peripheral gold encircles satin silver centers.

633 **1906'D' Choice Brilliant Uncirculated.** An attractive specimen, with ample mint lustre and pleasing mint frost in the fields. This piece is toned in medium gray shades.

Lot No. 634

634 **1909 Choice Brilliant Uncirculated,** with full, pillowy lustre and mint frost visible on both sides. Some toning spots.

635 **1912'D' Brilliant Uncirculated** and virtually in the choice category. Satiny mint lustre beneath a delicate blush of lavender-gold toning.

636 **1913'D' Choice Brilliant Uncirculated.** A delightful, fully frosty Denver coin showing a light gold toning.

U. S. LIBERTY WALKING HALF DOLLARS

637 **1918 Very Choice Brilliant Uncirculated,** highly attractive, with iridescent russet and pale gray toning over full mint lustre.

638 **1920 Choice Brilliant Uncirculated.** Glowing silver is laved in clear gold and russet.

CHOICE 1921'D' HALF DOLLAR

Lot No. 639

639 **1921'D' Very Choice Brilliant Uncirculated,** virtually gem. Bright and lustrous, white and untoned. Both sides are pleasingly frosty, and the coin will, overall, make a good addition to a high grade collection of the denomination. A scarcer date, and in fact, a very tough one to locate in this exalted condition. ***(SEE COLOR PLATE)***

640 **1927'S' Very Choice Brilliant Uncirculated.** Bright white and untoned. A date which is tough to locate in the middle to higher Uncirculated range.

641 **1933'S' Choice Brilliant Uncirculated.** Bright and very satiny surfaces, with just a trace of toning. Well struck, including a fully rounded thumb. A very underrated date in this condition.

642 **1934, 1936, 1939, 1939'D'. Choice Brilliant Uncirculated.** Clear vibrant silver-white coins show some clear gold.

643 **1936 Gem Brilliant Uncirculated.** Both specimens show full head and hand detail, further enhanced by lovely mint frost with a touch of gold. **2** pieces.

644 **1936 Brilliant Uncirculated; 1939'D' Choice Brilliant Uncirculated;** both lustrous and attractive examples. **2** pieces.

645 **1936'D' Gem Brilliant Uncirculated.** Satiny mint bloom enhanced by well struck devices.

646 **1936'S' Choice Brilliant Uncirculated.** Sharply struck, and exhibiting full satiny mint lustre beneath pale golden toning.

647 **1938 Choice Brilliant Proof.** Bright and lustrous, with full mirror fields graced in places by russet and pale gold toning.

648 **1938, 1939, 1939'D' Brilliant Uncirculated,** and **Choice Brilliant Uncirculated,** with claims to the gem category (2) respectively. All with a hint of delicate golden toning.

649 **1939'D', 1941'D', 1942, 1943, 1944 Gem Brilliant Uncirculated.** Outstanding strikes and lustre distinguish all of these wartime coins. MTB holder, SRC MS65 (private company holder), PCGS MS65, 66, 65 respectively. **5** pieces.

650 **1940 Gem Brilliant Uncirculated.** Sharply struck, full satiny surfaces. Medium gold with lavender under tones.

651 **1940 Choice Brilliant Uncirculated,** toned in gold shades; **1940'S' Brilliant Uncirculated,** or slightly finer. Lustrous and untoned. **2** pieces.

652 **1940'S', 1941'D', 1943, 1944'D' Choice Brilliant Uncirculated** or slightly better, delightful frosty white shows some peripheral lilac-gold. **4** pieces.

HANDSOME LIBERTY WALKING HALF DOLLAR SHORT SET

653 **A "short set" of Liberty Walking Half Dollars (1941-1947).** All of the coins grade **Choice Brilliant Uncirculated,** or better with most approaching the gem category. A lovely set mounted in a custom Dansco album. **20** pieces.

654 **Collection of Wartime Half Dollars: 1941, 1941'S', 1942, 1943'D', 1944, 1944'D', 1945'D', 1945'S'.** Grading on average **Brilliant Uncirculated** to **Choice Brilliant Uncirculated,** each is lustrous and attractive. **8** pieces.

U. S. SILVER DOLLARS
U. S. FLOWING HAIR SILVER DOLLARS

MAJESTIC 1794 FLOWING HAIR SILVER DOLLAR

Lot No. 659

659 **1794** Bolender 1. Choice About Uncirculated, and close to full Mint State. This smooth and reflective example of the first U.S. Silver Dollar is one of the finest examples accessible to numismatists today, and is a monument to the technical difficulties faced by the fledgling Philadelphia Mint. Without a coining press specifically designed for such broad planchets, the mint made do with the Large Cent press. Producing silver planchets was another challenge, as evidenced by the microscopic porosity and minute impurity pits which appear before Liberty's nose, at the obverse rim and below the eagle's right wing. Possibly as many as 2,000 1794 Dollars were struck, but only 1,758 pieces were found to be of sufficient quality to be actually released from the Mint. This coin shows the left obverse stars weakly impressed, but the head, date and eagle are exceptionally sharp. Researchers believe the characteristic weakness of the stars resulted from the press operators placing the upper die at a slight angle rather than exactly parallel to the reverse. Lovely steely toning is complemented by the merest hint of clear gold and the coin is free of the harsh adjustment marks so often found on these large silver pieces. Here is an early Dollar of the highest quality likely to be found today. ***(SEE COLOR PLATE)***

Ex Stack's January 1996 sale, lot 606 (no envelope enclosed).

Lot No. 660

660 **1795** Flowing Hair. B.4, two leaves below each wing. Choice Very Fine, well detailed, with delicate steel and blue peripheral toning. The fields are wonderfully free of major marks, and the adjustment marks for which this denomination is ordinarily famous are here absent.

Lot No. 661

661 **1795** B.5. Extremely Fine. Light surfaces from a past cleaning, with a few rim bumps noted. Well struck, and still quite nice overall.

662 **1795** B.5. Problem free Choice Fine and a very worthwhile coin. The popular "Bar" variety, so called from the die engraver's scratch which hovers in the left obverse field directly opposite the first curl. The centers of this variety are very often found softly struck up. Both sides of this specimen are toned in pale gray, while portions of the obverse design are outlined in iridescent gold. There are no serious rim or surface marks on this piece, a remarkable statement given the fact that it has survived for over 200 years without picking up its share of heavy contact marks. A hidden pin scratch in Liberty's lower curls is the only detriment that requires particular notice. This would make a very satisfying type coin for almost any collection.

U. S. DRAPED BUST SILVER DOLLARS

Lot No. 663

663 **1796** Small Date, Large Letters. B.4. Choice Very Fine, nearly Extremely Fine, with very faint traces of lustre around some of the stars on the obverse. Both sides are toned in dark gray in the fields, while the central devices are a paler shade of gray and gold. Two old obverse scratches, now faded to near insignificance; two tiny reverse rim dings.

664 **1796** B.4. Another. Small date, Large letters. Choice Very Fine, both sides a fairly even pale gray in color. Liberty's hair strands are well struck up, and the stars on the obverse show considerable detail. The eagle's breast is worn, as expected, but there is still definition to be seen in its wing feathers and the wreath elements are complete. This is a popular type, and a nice example of the third year of issue of the denomination.

665 **1796** B.4. A third. Small Date, Large Letters. Very Fine, very nearly choice. Both sides of this attractive specimen are deeply toned in coin silver gray, with some areas of pale gold and russet around the rims. The fields and central devices are remarkably clear and clean, with just a few very light handling marks, far less than would be expected for the grade. This would make another very attractive type coin in an advanced collection. PCGS VF25.

666 **1797** Obverse Stars 9x7. Large Letters. B.2. Overall, Choice Fine and very attractive for the grade. Like the 1795 described earlier, this piece is essentially problem free and very pleasing for its grade. Both sides are toned in medium gray shades, while the central devices are a lighter shade of that color. The reverse was struck slightly off center to the left, but affecting only the denticles, there. This would make a nice companion to the 1795 described earlier.

667 **1797** Obverse Stars 10x6. B.3. Very Fine, heavy hairlines on the obverse from a previous cleaning.

Lot No. 668

668 **1798 Small Eagle.** 13 Obverse Stars. B.1. Very Fine, once lightly cleaned, now an even pale silver in color. Final year of issue of the type, the reverse was redesigned the following year to incorporate a rendition of the Great Seal of the United States.

669 **1798 Heraldic Eagle.** B.13. Variety with ten arrows on the reverse. Very Fine, pale gray with areas of light gold in some portions of the reverse. This variety is notorious for being softly struck in the centers, and the eagle's head is almost never detailed. First year of issue of the newly designed six year type.

670 **1798 Heraldic Eagle.** B.19. Very Fine. Called by Bolender "Very Rare." Since Bolender's time, specialists have determined that the variety is, today, very scarce. The obverse and reverse are deeply toned in rich gray, with traces of paler gray and gold on the high points and in the protected areas. A field nick below the second star and a scrape below Liberty's bust are noted. Struck from the broken state of the obverse, the die cracked vertically from E through bust and 1 to rim below, the state undoubtedly accounting for the rarity of the variety.

671 **1799** Normal Date. B.2. Very Fine, lightly buffed, toned in purple and gray. This is one of the scarcer varieties of the date.

672 **1799** B.5. Choice Very Fine. This handsome specimen shows remarkably few marks and trouble-free wear, pearl gray contrast with clear gold on the devices.

673 **1799 Normal Date.** B.10. Very Fine, pale silver on both sides with areas of iridescent gold around the rims. Two light obverse toning lines and a pin scratch at the fourth star are noted.

OUTSTANDING 1799 DOLLAR

Lot No. 674

674 **1799** B.11. **Brilliant Uncirculated,** with distinct claims to choice. The obverse and reverse of this sharply struck example are bright silver in color, with a trace of pale russet around the rims at the right. This is the popular "Tiny Berry" variety, so called from the fact that only one berry appears on the reverse branch, and it is extremely small. This would make a nice coin for inclusion in a high grade type collection. ***(SEE COLOR PLATE)***

675 **1799** B.16a. Choice About Uncirculated, medium silver gray in color with traces of iridescent blue and rose primarily on the reverse. Some contact marks on cheek, lightly smoothed.

676 **1801** B.2. Choice Very Fine, and a decent coin for the grade. Both the obverse and reverse are toned in varying shades of gray, with pale gold on the fields. There are no really serious detracting marks on either side.

677 **1802/1** Close Date (the *Guide Book's* "Narrow Date"). B.4. Very Fine, overall medium gray in the fields, the high points being a lighter shade. Tiny depression beside 13th star, areas of smudged toning around RTY, otherwise another basically problem free coin.

678 **1803** Small 3. B.6. Very Fine, pale gray on both sides, several reverse rim dings. Struck from a pronouncedly dished obverse, that whole side of the coin appearing to bow out toward the observer.

POPULAR 1836 GOBRECHT SILVER DOLLAR

Lot No. 679

679 **1836 Gobrecht. Name on Base.** Eagle Flying Amid Stars. Plain edge. Dies aligned "Coin Turn." Very Fine, pale silver on both sides with some interesting yellow toning on Liberty's shield and the high points of the reverse. Undoubtedly, one of the original 1,000 struck before the close of 1836, intended for circulation use.

U. S. LIBERTY SEATED SILVER DOLLARS

680 **1842** A strong Very Good, with a small contact mark at the central obverse. A pale gray example with areas of golden-brown obverse toning.

CHOICE PROOF 1851 RESTRIKE LIBERTY SEATED DOLLAR

Lot No. 681

681 **1851** Restrike. **Choice Brilliant Proof.** Here is a glittering coin whose flashing fields bear a few light hairlines as so often seen on early 19th century Proofs. This piece bears the well centered date and is without the engraver's line in the upper right corner of the reverse shield that are diagnostic for restrikes believed struck in 1858-1860. The number struck is not known, but researchers suggest that 15 to 20 piece may exist today. Deep mirror silver fields are haloed by old gold and blue at the crisply squared rims. This specimen is bolder than the Amon G. Carter example sold by Stack's in January 1984 and is at least as attractive as the Norweb specimen called Proof-63 in 1988. ***(SEE COLOR PLATE)***

Ex James A. Stack Collection (Stack's, March 1995, lot 188, no envelope enclosed).

682 **1853** Extremely Fine, deeply toned on both sides in gold shades. Hidden reverse rim dent at 3 o'clock. *Only 46,110 were struck.*

GLORIOUS CHOICE PROOF 1859 LIBERTY SEATED DOLLAR

Lot No. 683

683 **1859 Choice Brilliant Proof.** This dazzling coin is *one of only 800 Proofs struck*, of which few can survive in anything like comparable condition. The obverse shows the delicate recutting on the base of the 1 that identifies the Proof die. Close examination reveals a tiny reeding line over the eagle's neck, and a few light hairlines in the deeply mirrored fields. This is on of the first Proof Silver Dollars struck for public sale and its historical importance is matched by its breath-taking beauty. Finer than the January 1984 Amon G. Carter example, this splendid early Proof approaches the quality of the Norweb coin. ***(SEE COLOR PLATE)***

Ex James A. Stack Collection (Stack's, March 1995, lot 196, no envelope enclosed).

CHOICE MINT STATE 1859'O' LIBERTY SEATED DOLLAR

Lot No. 684

684 **1859'O' Choice Brilliant Uncirculated.** Here is an exciting example of New Orleans Branch Mint coinage so seldom found in this exceptionally high level of preservation. The boldest silver-white mint lustre shows a wisp in peripheral gold on the obverse and an unusually fill 'O' below the eagle. Here is the perfect coin for that very special date or type set. ***(SEE COLOR PLATE)***

Ex James A. Stack Collection (Stack's, March 1995, lot 197, no envelope enclosed).

685 **1859'O'** Another. Extremely Fine, with areas of pleasant iridescent gold around many of the protected areas of both sides. Old obverse cut in left field, reaching into Liberty's arm. Third year of issue of the type from the New Orleans Mint.

CHOICE 1859'S' DOLLAR

Lot No. 686

686 **1859'S'** Choice Extremely Fine, nearly About Uncirculated and an important coin, as such. Both sides of this low mintage issue are bright silver in color, with just faint areas of pale russet toning in places. The fields are bright and semi-reflective, as expected from a date of which *only 20,000 were struck.* Undoubtedly, the dies remained fresh for much of their lives.

APPEALING CHOICE PROOF 1860 SILVER DOLLAR

Lot No. 687

687 **1860 Choice Brilliant Proof.** *One of only 527 Proofs of this date sold by the Mint.* Deep glittering mirror fields are enriched by clear steel toning around the reliefs, a few light hairlines can be found under a glass.

CHOICE 1860'O' LIBERTY SEATED DOLLAR

Lot No. 688

688 **1860'O' Choice Brilliant Uncirculated,** highly attractive, toned in rich russet and pale gray shades. The last Silver Dollar date struck at the New Orleans Mint until 1880.

GLITTERING CHOICE PROOF 1862 SILVER DOLLAR

Lot No. 689

689 **1862 Choice Brilliant Proof.** *One of only 550 Proofs to escape the melting pot in the year struck.* This Civil War era cartwheel boasts needle-sharp squared edges, deep mirror fields enriched by pale orange-rose toning with a fine blue sheen. This splendid Proof is measurably finer than the Amon G. Carter and Norweb specimens of this sought-after issue. ***(SEE COLOR PLATE)***

Ex James A. Stack Collection (Stack's, March 195, lot 202, no envelope enclosed).

SECOND CHOICE PROOF 1862 SILVER DOLLAR

Lot No. 690

690 **1862 Choice Brilliant Proof.** Another. Boldly glittering fields are an attractive silver, highlighted by a touch of pale pink-red on the reliefs. *One of 550 struck and released* by the Philadelphia Mint.

GORGEOUS CHOICE PROOF 1863 SILVER DOLLAR

Lot No. 691

691 **1863 Choice Brilliant Proof.** *One of 460 Proofs issued* in this Civil War date. Fields display deep mirror gleam with some faint hairlines typical of so many Proofs of this formative era in American numismatics. Beautifully frosted reliefs stand out boldly from the flashing fields, highlighted by dashes of deepest gold and iridescent blue at obverse left border. The silver-white reverse shows just a wisp of palest gold. ***(SEE COLOR PLATE)***

BOLD 1864 CHOICE PROOF SILVER DOLLAR

Lot No. 692

692 **1864 Choice Brilliant Proof.** Here is the late Walter Breen's Obverse 4, identified by shield point left of the center of 1. GEM PROOFLIKE 1892'CC' DOLLAR

An Exemplary Morgan Dollar

Lot No. 815

815 **1892'CC' Gem Brilliant Uncirculated. Deep mirror prooflike,** in fact, so deep and prooflike that our consignor is tempted to call this a "Presentation Strike." In our opinion, if this were not a presentation strike, it is about as close as the Carson City Mint could have come to making one if it had intended to! Both the obverse and reverse fields of this specimen are deep, mirror-like, prooflike, and brightly reflective. The central devices, Liberty's head on the obverse and the eagle and wreath on the reverse, together with the letters in the legends and the numerals in the date, are all sharp and frosty. Full mint polish can be seen in even the smallest areas within numeral and letter shapes, and there are bright areas of polish around some of Liberty's hair strands. The rim appears well formed, and the reeding is sharp, as well. It is very tempting to suggest that this piece might have been made in some connection with the 1892-1893 World Columbian Exposition scheduled for Chicago. While there is no evidence that we can point to that specifically suggests this, it is a pleasing suggestion and one that adds some romance and mystery to the importance of this piece. We note that in our McPherson sale (February 26, 1953) there was a specimen called "Proof" at the time.

817 **1892'CC'** A third. **Brilliant Uncirculated,** nearly in the choice category. Hints of pale gold appear at the peripheries. PCGS MS62.

CHOICE 1893 MORGAN DOLLAR

Lot No. 820

820 **1893 Choice Brilliant Uncirculated.** Pleasing frosty surfaces with a hint of golden toning. Housed in a red Redfield holder graded MS65.

821 **1893** Another. About Uncirculated. Much lustre, light circulation make this a desirable coin.

RARE 1893'O' MORGAN DOLLAR

Lot No. 822

822 **1893'O' Brilliant Uncirculated,** with light russet toning around the rims, full cartwheel lustre and frosty fields. Rather typically bagmarked, some slide marks on the cheek. Nevertheless, a very good specimen of an issue extremely tough to locate in this high grade.

823 **1893'S'** Very Fine, and quite nice for the grade. Medium gray surfaces that are quite clean for the grade. A classic rarity of the series that has a history of being counterfeited. Here is a nice example that is authenticated and graded ANACS VF20.

824 **1893'S'** Another. Very Good, the key Morgan Dollar date (excepting the Proof only 1895). *Only 100,000 were struck.* This example is deeply toned in gray in the fields, while the high points are a lighter shade of the same color.

MAGNIFICENT GEM PROOF 1894 DOLLAR

Lot No. 825

825 **1894 Gem Brilliant Proof.** A magnificent specimen of this low mintage issue. Bright white and untoned. *Only 972 Proofs were struck,* along with 110,000 business strikes. This specimen has essentially flawless fields which exhibit full mirror depths. The central devices are fully frosted, as are the stars and letters on both sides. The rims are well formed, and the reeding is complete. Two small toning spots on the lower portions of Liberty's bust can be seen in the right light, these are the only "blemishes" that detract from the outstanding quality of this piece. This is one of the finest we have seen, and it is a pleasure to catalog.

Ex Stack's Spring sale, April 11, 1978, lot 737.

826 **1894** Choice Very Fine. Medium gray surfaces with some very light hairlines. Scarce.

827 **1894** Another. Fine. Somewhat matte surfaces show variegated old-gold, burgundy, blue and silver.

CHOICE 1894'O' MORGAN DOLLAR

Lot No. 828

828 **1894'O' Choice Brilliant Uncirculated,** fully lustrous and frosty, an important example of an issue very elusive in this high grade. A small area of reverse discoloration below the eagle's left wing is the only defect requiring specific mention.

Ex Stack's September 8, 1977 sale, lot 791.

829 **1894'O'** Another. **Brilliant Uncirculated,** very close to choice, with palest gray toning over full mint lustre. NGC MS62.

830 **1894'O'** A third. **Brilliant Uncirculated,** or virtually so. Pleasing lustre, edges are deep gold.

831 **1894'S' Brilliant Uncirculated,** with the lustrous beauty of choice. Fields bear scattered contact tics.

832 **1894'S' Brilliant Uncirculated,** lightly toned around the peripheries in rich russet. One or two obverse contact marks, but a high grade example of this date.

833 **1895'O'** Extremely Fine. Moderate wear, some peripheral red-gold lustre define this example.

834 **1895'O'** Another. Extremely Fine, low mintage issue. Both sides toned in gray and russet, some hairlines.

835 **1895'S'** About Uncirculated, bright white and untoned, with mint lustre remaining in the protected areas on both sides, and faintly in the obverse fields. Another low mintage issue from the mid-1890's.

837 **1896 Choice Brilliant Uncirculated,** lustrous and satiny; **1897 Gem Brilliant Uncirculated,** very attractive, pale russet toning, some hidden obverse hairlines on cheek. **2** pieces.

Ex Stack's December 10, 1981 sale, lot 502.

838 **1896, 1897, 1898 Very Choice Brilliant Uncirculated.** All coins boast the smoothest cheeks, reflective fields with a trace of light gold on the first. **3** pieces.

Lot No. 839

839 **1896'O' Brilliant Uncirculated,** full cartwheel lustre enhances pleasing mint frost in the fields. Obverse somewhat baggy, as often seen on this date.

Ex Stack's December 10, 1981 sale, lot 845.

840 **1896'O'** Extremely Fine; **1896'S'** Very Fine. Normal wear, some olive-gold toning can be seen on both coins. **2** pieces.

Lot No. 842

842 **1896'S' Choice Brilliant Uncirculated,** fully lustrous, with complete mint frost in the fields and on Liberty's cheek, some light baggy disturbances in the frosting, but no significant hits or other defects. A very tough grade for this issue.

Ex Goshen Collection (Stack's, February 2, 1978, lot 697).

847 **1898'S'** Another. **Brilliant Uncirculated.** Full frosty lustre, a few typical bagmarks appear on this example in its red Redfield holder, graded MS65.

848 **1899 Brilliant Uncirculated,** or finer, lustrous; **1899'S'** About Uncirculated, toned, hairlines; **1900'S' Brilliant Uncirculated,** hairlined. 3 pieces.

855 **1901** Another. **Brilliant Uncirculated,** with some claims to choice status. Both sides are a lovely, medium gray over full mint lustre.

856 **1901'O' Choice Brilliant Uncirculated,** fully lustrous and frosty, bright white and untoned; **1902 About Uncirculated; 1903 Brilliant Uncirculated,** full mint lustre, most frost on Liberty's cheek remaining; **1903'O' Choice Brilliant Uncirculated,** nearly gem save for a few light contact marks. **4** pieces.

857 **1901'O', 1902 Choice Brilliant Uncirculated.** First is pale glowing gold, second stark silver; **1901'S' Brilliant Uncirculated.** Rich lustre, a number of obverse bagmarks identify this specimen. **3** pieces.

858 **1901'S' Brilliant Uncirculated,** with claims to a higher grade. Housed in a red Redfield holder graded MS65.

CHOICE 1903'S' MORGAN DOLLAR

Lot No. 865

865 **1903'S' Choice Brilliant Uncirculated,** an important example of an issue which is exceptionally elusive in this high grade. Both sides are faintly toned in russet and iridescent blue around the rims. The centers are mostly silver and untoned. Full cartwheel lustre can be seen on both sides, and areas of frost remain on the upper portions of Liberty's cheek. There are one or two bagmarks, a small cluster of them being on Liberty's cheek, but none are seriously distracting. The piece has a respectable eye appeal, and is a nice example of its issue. 1903'S' is a tough date in any condition better than Very Fine, and is a rarity in Choice Brilliant Uncirculated.

Ex Stack's September 8, 1977 sale, lot 806.

866 **1903'S'** Very Good; **1921'S' Morgan.** About Uncirculated; **1923'D' Peace.** Choice Extremely Fine. LOVELY 1904'S' MORGAN DOLLAR

Lot No. 867

867 **1904'S' Very Choice Brilliant Uncirculated,** bright and semi-prooflike, the obverse with blazing cartwheel lustre, the reverse toned in two places near the rim, short contact marks on the obverse. A date very difficult to locate in this high grade.

Ex Goshen Collection (Stack's, February 2, 1978, lot 379).

U. S. PEACE DOLLARS

868 **1921 Peace. Choice Brilliant Uncirculated,** bright and lustrous, with frosty fields. Popular, first year of issue of the type.

879 **1924'S' Choice Brilliant Uncirculated.** The merest hint of pale gold overlies the deep satin-white surfaces.

880 **1924'S'** Another. **Brilliant Uncirculated,** nearly choice. Medium multicolor toning on the obverse. Housed in a red Redfield holder grade MS65.

881 **1925 Gem Brilliant Uncirculated.** Appealing clear gold covers the virtually mark-free surfaces. NGC MS65.

882 **1925'S' Choice Brilliant Uncirculated.** Satisfyingly smooth satin surfaces betray just a wisp of soft gold sheen on this exceptional specimen of a San Francisco date of the greatest rarity in gem. PCGS MS63.

Lot No. 890

890 **1928 Very Choice Brilliant Uncirculated.** Clear golden toning laves the satin-smooth fields.

891 **1928** Another. **Very Choice Brilliant Uncirculated,** a highly attractive example with distinct Gem-like appeal. Key date in the series, with the lowest mintage of any struck.

Ex Stack's January 27, 1981 sale, lot 801.

892 **1928** A third. **Choice Brilliant Uncirculated.** A bright and lustrous specimen, frosty, and graced by medium golden and gray toning. An important coin in this condition.

893 **1928** A fourth. **Choice Brilliant Uncirculated,** somewhat more darkly toned, old fingerprint on reverse.

894 **1928'S' Very Choice Brilliant Uncirculated,** a lustrous example with some mottled areas of golden brown toning on both sides. This is a very tough date to locate in higher grades, particularly as this specimen. In fact, although the 1928 Philadelphia strike has a lower mintage, there are more very Choice Brilliant Uncirculated Philadelphia Mint than San Francisco Mint examples of this date surviving today.

895 **1928'S'** Another. **Very Choice Brilliant Uncirculated,** a lovely example, rich and satiny, with blazing cartwheel lustre.

896 **1928'S'** A third. **Choice Brilliant Uncirculated.** Richest silver lustre shows a hint of lightest gold.

CHOICE 1934'S' DOLLAR

Lot No. 903

903 **1934'S' Choice Brilliant Uncirculated.** The most elusive date of the whole series, and the toughest to locate in Uncirculated or better condition. This specimen is fully lustrous, with unbroken cartwheel lustre showing on both sides. Original mint frost still remains in the fields, particularly around the figure of the eagle on the reverse. Both sides are lightly toned, in the palest of russet shades. A couple of light obverse hairlines are all that keep this from gem status.

U. S. QUARTER EAGLES ($2.50 GOLD)

VERY RARE 1826/5 QUARTER EAGLE

Lot No. 934
(Enlarged)

934 **1826/5 Overdate.** Choice Extremely Fine. Very sharply struck, and an attractive, well balanced coin. Both sides are a pleasing, pale yellow gold in color. The central devices are well struck up, and even detail in the eagle's neck feathers can be seen without the aid of magnification. Liberty's hair curls appear to be almost totally complete, unusual for the grade. Struck from lightly clashed dies. **Very Rare,** *only 760 were struek.* ***(SEE COLOR PLATE)***

Ex Stack's January, 1989 sale, lot 708.

935 **1834** Classic Head. No Motto. Choice Very Fine, attractively toned in medium yellow shades. Small area of coppery coloring near Liberty's nose.

936 **1835** Choice Very Fine, medium yellow gold color. All stars show full detail on the obverse, and the eagle's wings and talons are complete. Softly struck in the centers. Second year of issue of the new, Classic Head type.

937 **1836** About Uncirculated. Deep greenish-gold toning adds to this coin's appeal. ANACS AU50.

938 **1836** Another. Very Fine. Variety with Script 8 in the date. Both sides of this evenly worn piece are pale yellow in color. Some rim marks are noted.

CHOICE 1839'C' QUARTER EAGLE

Lot No. 939

939 **1839'C'** Choice Extremely Fine. *Only 18,140 were struek.* This specimen is a lovely, medium yellow gold in color, while the reverse is toned around the periphery in a richer orange shade. Despite the states of the dies, this piece was well struck, and shows nearly full central sharpness of detail on both sides. Both the obverse and reverse dies had shattered by the time this coin had been struck, creating crisscross die breaks running through the centers. The piece is remarkably free from serious signs of handling.

OUTSTANDING 1844'D' QUARTER EAGLE

One of the Finest Known

Lot No. 940
(Enlarged)

940 **1844'D' Brilliant Uncirculated. Nearly choice** in terms of sharpness, certainly choice in terms of overall quality and "eye appeal." Bright yellow gold in color, typical of the Dahlonega Mint's issues. The obverse and reverse fields are bright and semi-reflective. Unlike most 1844 Dahlonega Mint Quarter Eagles, this piece shows full detail in the centers, with the eagle's breast feathers and the horizontal shield lines sharp, as well as Liberty's curls over her ear and the letters in the word LIBERTY. Undoubtedly, this specimen is one of the Finest Known, and is certainly one of the nicest we can remember handling. ***(SEE COLOR PLATE)***

This piece surely will excite the Quarter Eagle specialist. NGC MS61.

This variety represents only a small fraction of the 100,000 or so Half Eagles struck in 1810. Both sides of this specimen are beautifully toned, in rich Federal gold with pleasing orange gold highlights. Mint lustre can be seen on both sides, particularly on the reverse, and there is pleasing mint frost in the fields on the obverse and the reverse. The central devices are about as sharp as usually seen, with nearly full curl detail in Liberty's hair on the obverse and most of the eagle's neck and wing feathers clear and bold. The piece is well centered, perfectly on the obverse, nearly perfectly on the reverse. The edge reeding is complete, also. On the obverse, original mint lustre can be seen around the stars, and in the field behind Liberty's head, as well as across much of her figure and her profile. Struck in the final year of issue of the Capped Bust Left type, designed by John Reich. This piece is well struck in the centers, with pleasing definition in Liberty's hair curls and the eagle's neck feathers. This would make a very nice addition to a high grade collection of United States gold coins.

NEAR GEM 1820 HALF EAGLE

Lot No. 995

In fact, it is almost certainly within the top ten specimens known to survive today. Both sides are a pleasing, and interesting, pale yellow gold with tinges of the palest sea-green, undoubtedly from the alloy. The fields are lustrous and frosty, and nearly perfectly unbroken cartwheel lustre can be seen on both sides, the reverse, particularly. The central devices are sharply struck, and almost all of Liberty's hair curls on the obverse and the eagle's feathers on the reverse can be seen to full advantage. U. S. EAGLES ($10.00 GOLD)

UNCIRCULATED 1843'O' EAGLE

Lot No. 1035

1035 **1843'O' Brilliant Uncirculated.** An important example of this early, New Orleans Mint issue. This is a date that, as Breen described, is "extremely rare uncirculated." Both sides of this piece are a bright, medium yellow gold in color. Mint lustre can be seen around the protected areas on the obverse and reverse, and across portions of the center of the reverse. One or two light hairlines are noted on the obverse, along with very faint (actually, microscopic) adjustment marks in the center. Although a fairly substantial number of Eagles were struck at the New Orleans Mint this year, the vast majority of them circulated actively, making uncirculated specimens quite rare, today.

1036 **1846'O'** Extremely Fine, pale yellow gold in color, some light obverse marks, much lustre remaining. These New Orleans Mint eagles circulated widely at the time, and were the preferred bankers medium of exchange.

1037 **1851'O'** Choice About Uncirculated. A pleasing example of an issue which is rare in anything above Extremely Fine condition. Bright yellow gold in color, with attractive mint lustre around the protected areas of both sides. Some stray signs of circulation are noted on the obverse and reverse, as expected from the grade. This is the interesting Breen 6898 variety, with a hollow ring-shaped figure on the second stripe of the shield on the reverse.

UNCIRCULATED 1856'S' EAGLE

Lot No. 1038

1038 **1856'S' Brilliant Uncirculated.** A very lovely example of another early Eagle date which is very difficult to locate in anything better than Extremely Fine grade. This specimen is bright yellow gold in color, and is fully lustrous on both sides. A small field mark below the eagle's right wing will serve to identify this piece. Interestingly, there is bright, reflective surface within the central shield on the reverse. *Only 68,000 were struck.*

1039 **1859'O'** Choice Very Fine, pale yellow gold in color with some areas of lustre remaining around the protected areas of the stars. Light reverse hairlines in the upper right field, the surfaces are otherwise relatively smooth. **Scarce date,** *only 2,300 were struck.*

1040 **1880** Extremely Fine. A well struck specimen of a low-mintage date, hairlined from cleaning long ago.

1041 **1882 Brilliant Uncirculated,** nearly choice, fully lustrous and semi-prooflike, short reverse bagmark below the eagle.

1042 **1882'S' Brilliant Uncirculated,** bright and lustrous. Rose gold with pale orange overtones. NGC MS60.

PROOF 1898 EAGLE

Lot No. 1050

1050 **1898 Brilliant Proof.** *Only 67 Proofs were struck.* The obverse and reverse fields of this example are fully brilliant and mirror-like, while the central devices are pleasingly frosted. Some light scuff marks are noted, but the devices are well struck up, showing full and clear central detail. The piece is, overall, toned in a nice, light Federal yellow gold. PCGS PR60.

1051 **1901 Very Choice Brilliant Uncirculated,** satiny and lustrous, with fully frosty fields and pleasing yellow gold color. A well struck and attractive example of the type.

VERY RARE 1920'S' EAGLE

Lot No. 1069
(Enlarged)

1069 **1920'S'** About Uncirculated. **Very Rare.** This is the second rarest date in the With Motto series, exceeded only by the legendary 1933. As David Akers noted, he ". . .still rated the 1920-S ahead of the 1913-S and 1911-D in terms of overall rarity and have placed it third behind only the 1933 and 1907 Rolled Edge." As Akers further notes, it is quite likely that the entire mintage of 1920'S' Eagles was never actually released into circulation, and that most were melted. This specimen is an attractive, light yellow gold in color. Mint lustre can be seen on both sides, and the surfaces are pleasingly free from major signs of circulation. ANACS AU55. ***(SEE COLOR PLATE)***

1070 **1932 Choice Brilliant Uncirculated,** virtually in the ranks of gem. This beautifully struck coin's deep, glowing red-gold lustre gives the concave fields exceptional fiery depth.

1071 **1932** Another. **Brilliant Uncirculated.** Fully lustrous, with pleasing satiny surfaces. The last really collectible date of the type.

1072 **1932** A third. **Brilliant Uncirculated.** Rich satiny lustre, surfaces are generally smooth except for a couple of obverse tic marks.

Lot No. 1075

1075 **1855'S' Brilliant Uncirculated.** An important example of this San Francisco Mint issue. Both the obverse and reverse are beautifully toned, in medium orange gold shades around the rims, while the centers are bright orange gold in color. Full mint lustre can be seen on both sides, creating perfectly unbroken cartwheel lustre. Mint frost can be seen in the fields, and the central details are sharp and well struck up. This appears to have been struck with a large 'S' mintmark, and may be a variety not ordinarily encountered.

1076 **1858** Very Fine, medium yellow gold in color, even wear, just a few stray marks. A decent example of the type.

MINT STATE 1863'S' DOUBLE EAGLE

One of the Finest Known

Lot No. 1077

1077 **1863'S' Brilliant Uncirculated,** very nearly choice. **Among the Finest Known.** A really lovely specimen, soft and frosty, with satiny surfaces and full mint lustre. Well struck in the centers, and almost all the stars save for those on the extreme left show inner detail. On the back, the eagle in the center and the rays of glory above it are sharp and clear. Very, very few survivors of the original mintage can come close to competing with this piece in terms of its overall quality. In fact, there may be fewer than three to five examples known which could be considered equal to or finer than this specimen. Some hairlines are noted, not unexpected for a coin of this age, but none are detracting, and the piece has, overall, outstanding "eye appeal." ***(SEE COLOR PLATE)***

RARE CHOICE 1871 DOUBLE EAGLE

Lot No. 1078

1078 **1871 Choice Brilliant Uncirculated,** despite some very minor hairlines. Exceptionally lustrous and clean surfaces highlight this example. One of the rarest Philadelphia Mint coins, as David Akers states that he only saw three Mint State specimens during his survey of the series. A candidate for Finest Known. ***(SEE COLOR PLATE)***

1079 **1873 Open 3. Brilliant Uncirculated,** richly lustrous and well struck, some obverse bagmarks on the neck and by last star, with above average surfaces.

Ex Stack's September 1995 sale, lot 542.

1082 **1882'CC'** Extremely Fine. A bright and lustrous example of this low mintage, Carson City issue. Medium yellow gold in color, with areas of coppery toning visible. Mint lustre can be seen in the protected ares of the obverse and reverse. *Only 39,140 were struck.* With PNG Certificate 5508.

PROOF 1898 DOUBLE EAGLE

Lot No. 1086

1086 **1898 Brilliant Proof.** *Only 75 Proofs were struck.* This example has a very appealing "naked eye" look, with bright surfaces and frosty central devices. The fields are fully mirror-like, and both sides are well struck. Under high magnification, a few scattered contact marks can be seen. However, in our opinion, these do not detract from the overall beauty of the piece, which makes a very nice presentation. PCGS PR60. ***(SEE COLOR PLATE)***

Ex Superior's session of Auction '89 (July 1989, lot 954).
